

# Tree House

## OPEN HOUSE PREVIEW 2007

Tree House is a remarkable house in Clapham, south London, inspired by the beautiful and sustainable structure that dominates it: a mature tree. Like the tree, the house is highly adapted to its climate, built from natural materials and gets all its energy from the sun. The house has been shortlisted for the 2007 Grand Designs Awards and is the subject of a full colour book.

During the 2006 Open House weekend 1,500 people visited Tree House. This year the house will again be open to the public but you can avoid the queues by joining a preview evening on Friday 14th September.

This exclusive event is an opportunity to explore the house at your leisure and meet the owners, the architect and the local craftspeople involved in the project. Wine and homemade delicacies will be served.

Proceeds will go to Thatu, a charity that supports poor communities in South Africa to become sustainable through local organic food production ([www.thatu.org](http://www.thatu.org)).

Numbers are strictly limited and tickets are available on a first come first served basis. Tickets are £50 per head. Please make cheques out to Thatu and send to Thatu, The White House, Upper Green Road, Shipbourne TN11 9PS. [info@thatu.org](mailto:info@thatu.org) 07910 332939
