

New year, new beginnings

We've started the year with a tremendous boost by being [Charity of the Year](#) for the 30th anniversary year of Women in Banking and Finance.

And we've even gone into social networking -- please become a [Friend of Thatu on Facebook](#).

But best of all, we have a [new website](#). We hope you like it.

Projects progress

- Twenty-five new home gardeners are being trained by Soil for Life at the Levana School community project on the Cape Flats where the gardens are flourishing so well that the existing gardeners are being given advanced training including food processing and preserve making.
- We are also funding a new SEED organic schools programme Green Beginnings at Springdale Primary School.
- Intensive food gardening is being started at Sifisesihle School in the KwaZulu-Natal by the Midland Meander Association Education Project which is also successfully looking after projects we fund in Cedara and Carshaltion.

So, despite the tough economic climate, we are forging ahead – please help us do more.

Please [DONATE](#).
